

Features:

- Overcomes gravity drainage problems and enables basement showers
- compact size for discreet installation
- Sound pressure level (1m) at 46 dB
- Switch-on height 55 mm
- Installation height shower tray 12 cm
- Operating temperature 35°C
- Prepared shower inlet DN 40, usable on both sides
- Pressure outlet DN 32
- Tank ventilation through activated carbon filter
- Protection grade IP 44

Application:

- Pump suitable for shower and washbasin

Scope of delivery:

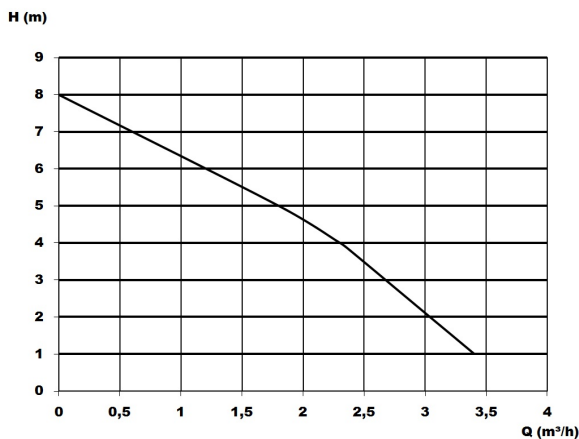

- Non-return valve

Product benefits:

- versatile use (shower & washbasin) due to 2 inlets at the bottom side
- low switch-on height

Technical data:
